Latest NEWS/INFO for the NEWSLETTER
MMMonVHF The VHF-DX-Portal
****

4-meter in Norway
70MHz will probably be available in Norway this year (spring or summer?). Proposal is 70.0 - 70.5MHz, 100Watts and secondary status. Some frequencies might be limited at the start due to PMR. 5MHz and 500KHz is also proposed as new available bands.

PLEASE DO REGULAR UPDATE OF THE eMWS and eMWDXCC at MMMonVHF

The Team of MMMonVHF will use YOUR "Most Wanted" for showing expedition the most wanted places (specially for MS in europe and EME all over the world). Remember such nice trips to DXCCs like GU, JW or JD1 these year or the multi-square operation from Tor, DJ8MS... Some of you did not update since 01/2007 and so maybe they are not interested anymore or have had no changes. So therefore we decide to build in a new BUTTON at your ACCOUNT to click that there was "NO CHANGES" in your "most wanted" since your last update. Otherwise we will remember your after a years periode to see if you still have interest in it... NO problem, if not, but than we will skip these entry after 3 years to have the table as update as possible (its not a question of quantity, it shall be high quality!). However, the eMWS and eMWDXCC pages make only sense if the data is as much up-to-date as possible. So, please feel free to upload your data as often as you want. SOURCE: The MMMonVHF Team

Thailand maybe qrv in the future of these year on 144 MHz EME
As you might have seen, Kasten, DL2LAH ist already for a longer QRL trip at HS (Thailand) and his QTH in OK16BQ will have a lot of place to install several antennas in the future. His call will be HS0ZIL and he have logged into the N0UK-Chat meantime. PLEASE give time to his project because surely he will need to get up all step by step. He promissed us to spread any possible EME activities later on...
SOURCE: Karsten, DL2LAH as HS0ZIL direct to MMMonVHF.

Tonga, A35. World traveller and Uruguay DX Group member Bert, CX3AN, will be active as A35HA from Tonga's main island, Tongatapu for one week starting February 14th. He informs OPDX that he will be active on 40-6 meters with a special emphasis on 30/17 meters using CW and SSB, and only 100 watts from his Icom 706 into dipole antennas. His activity will be limited because he will be on a family holiday trip.

Bert will be operating alone this time, not like other trips where
his good friend Mario, CX4CR, usually would join him. QSL via CX3AN.

Desecheo, KP5. Update. The KP1-5 Project is very aware of the need
for Desecheo in Europe. Previous DXpeditions contended with an
obstructed path to Europe making working this #3 most needed country,
difficult at best. During the recent reconnaissance trip to the
island, agreement was reached that will allow antennas to be placed
on a ridgeline above the helipad that will give a clear path to
Europe. See the photos showing the problem and the plan at
http://www.kp5.us/ (click on News / Updates): the team wants to
provide as many EU hams with a QSO as possible! Please visit also
http://www.kp5.us/help.htm to support this DXpedition.

The VHF-DX-Portal MMMonVHF - Newsletter Credits & Info
****

Our Newsletter is compiled from the input of the USER of the VHF-DX-Portal
MMMonVHF as well by a lot of free usable HF-V-U-SHF-Info-Sources and chats
like ON4KST-, N0UK-, RU-VHF-DX-Net, EA-V-U-SHF-Chat and others...

*** Many thanks to all USER who send us info and news ***

Wherever we found the info we always indicate the source of the info.
If you get knowledge of an expedition, which is NOT listed at our
VHF-DX-Portal MMMonVHF or if you have additional info for an expedition,
PLEASE be so kind and send us this info at
http://www.mmmonvhf.de/newsuser.php or http://www.mmmonvhf.de/kontact.php

The MMMonVHF-Team is always trying to spread any expedition info as much
up-to-date and reliable as possible and as long as the info does not
violate with our MMMonVHF-Policy.

Have a lot of fun and enjoy MMMonVHF!
